PROFESSIONAL SUMMARY

Motivated and detail-oriented React.js Developer with a strong foundation in web development, Android app design, and data analytics. Experienced in building responsive, user-focused applications and interactive dashboards using React.js, Python, Power BI, and SQL. Adept at analysing data to generate actionable insights and applying problem-solving strategies to real-world challenges. Passionate about leveraging technology to develop scalable, efficient, and innovative digital solutions that drive business and user value.

SKILLS & TOOLS

Technical Skills: Java, C, DBMS, HTML5, CSS, JavaScript, React.js, REST API Development, Manual Testing, Bug Lifecycle, SDLC & STLC

Tools: MySQL, Postman, Docker, Git, Selenium, Jira, VS Code, GitHub

Soft Skills: Communication, Problem-Solving & Analytical Thinking, Teamwork & Collaboration

WORK EXPERIENCE

React.js Developer Intern

May 2025 – Present

CyberFrat

- Developing scalable and responsive web applications using React.js and modern frontend technologies.
- Building reusable UI components and implementing state management for seamless user experiences.
- Collaborating with the development team on feature implementation, code reviews, and agile workflows.
- Integrating RESTful APIs and ensuring cross-browser compatibility and performance optimisation.

Data Scientist Intern

July 2024 – August 2024

Data Play

- Worked on multiple real-world data analysis projects involving Probability, Statistics, and Excel.
- Built visual dashboards in Power BI to represent data insights clearly and effectively.
- Strengthened skills in data cleaning, data visualisation, and report generation, improving decision-making accuracy.
- Enhanced problem-solving through practical exposure to analytical case studies and data interpretation techniques.

Web Developer Intern

August 2023

InternPay

- Developed and optimised responsive websites using HTML, CSS, and JavaScript.
- Worked on both frontend and backend modules to enhance functionality and user experience.
- Implemented debugging practices and ensured cross-browser compatibility.
- Strengthened technical collaboration skills by working in a virtual team environment.

PROJECTS

Personal Portfolio Website (React.js) | [Live Demo](#)

Technologies: React.js, JavaScript, HTML5, CSS3, Ant Design, React Scroll, Vite, GitHub

- Designed and developed a modern, fully responsive personal portfolio website using React.js to showcase projects, technical skills, education, internships, and professional experience.
- Implemented single-page smooth scrolling navigation, interactive UI components, dark/light theme toggle, responsive layouts, and reusable React components for an enhanced user experience.

- Integrated project showcase, resume viewer, social media links, and contact section while following modern frontend development practices and mobile-first design principles.
- Optimized website performance, accessibility, and cross-browser compatibility using reusable components, clean code architecture, and responsive CSS.

No-Code Dynamic Form Builder Web Application

- Developed a no-code form builder enabling admins to create and customise dynamic forms without programming.
- Implemented support for multiple input types (text fields, dropdowns, checkboxes, radio buttons) with flexible configurations.
- Designed an intuitive UI/UX for form creation, editing, duplication, and deletion to streamline form management.
- Integrated dark/light theme toggle and enabled real-time data capture using database integration.
- Provided admin features to view, analyse, and manage submitted form data efficiently.

To-Do List Web Application

- Developed a fully functional To-Do List app using React.js with Bootstrap for a modern, responsive UI.
- Enabled users to add, edit, and delete tasks dynamically with visual task completion indicators.
- Focused on scalability, modular architecture, and seamless user experience across devices.

Weather Bug Web Application

- Built a weather forecasting platform using HTML, CSS, JavaScript, and third-party APIs for real-time updates.
- Designed a clean, responsive interface displaying temperature, humidity, and multi-day forecasts.
- Ensured fast response time and data accuracy through optimised API integration across devices.

EDUCATION

Poornima College of Engineering, Jaipur	2022 – 2026
B.Tech – Information Technology CGPA: 8.06	2022
Kendriya Vidyalaya O.E.F Hazratpur	
Class XII (CBSE) 65%	2020
TinyTots Eng. Medium School, Tundla	
Class X 64%
